Remote Team Management

Discuss remote onboarding <

Explore how to manage different personalities remotely <

Discuss how remote working impacts mental health <

Objectives

Virtual onboarding

Onboarding remotely

Companies are increasingly depending on worker mobility, **investing in remote teams that connect from their homes** or anywhere outside the walls of traditional offices.

The virtual onboarding process

- Spread your onboarding program over a number of days
- No such thing as over-communicating
- Focus on the technology
- Add you company's culture and values

The virtual onboarding process

- The process should be interactive
- The role of the hiring manager and assigned support
- Model the behaviors that you want
