

Cloud Architecture

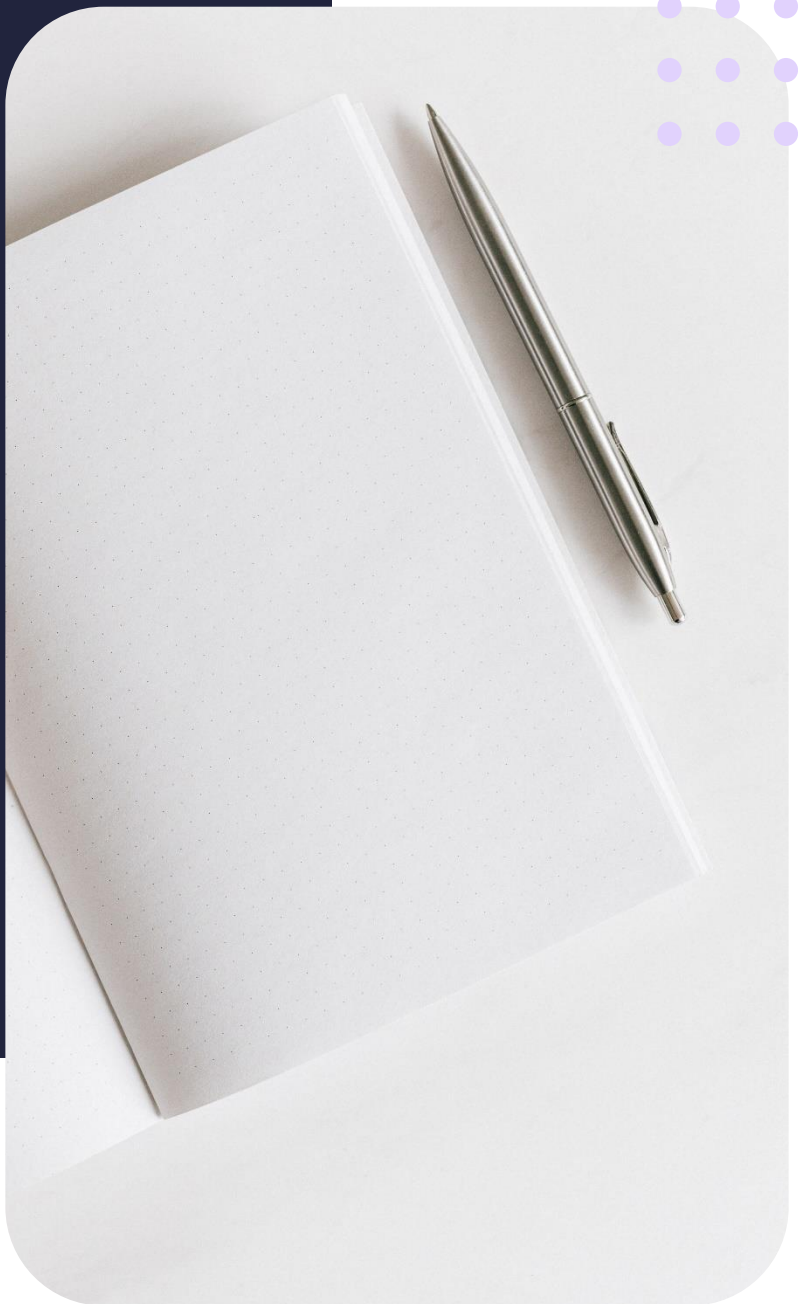

Oracle APEX: Developing a web application

Summary Notes

Contents

- 3 Lesson objectives
- 3 Storage Profit Margins Report
- 4 Order Status Report

Lesson objectives

By the end of this lesson, you should be able to:

- Develop a basic web application
- Generate reports

Storage Profit Margins Report

Product Name	Standard Cost	List Price	Category Name	Profit
Intel SSDPECM040T401	7123.66	8867.99	Storage	1744.33
Crucial	1139.23	1620.99	Storage	481.76
Corsair Dominator Platinum	1051.97	1449.99	Storage	398.02
Corsair Vengeance LPX	912.98	1299.99	Storage	387.01
Samsung MZ-V6P2T0BW	840.11	1199.99	Storage	359.88
Samsung MZ-75E4T0B	1153.64	1499.99	Storage	346.35
Corsair Vengeance LPX	867.52	1163.99	Storage	296.47
Corsair Vengeance LPX	821.91	1099.99	Storage	278.08
G.Skill Trident Z	1163.49	1431.99	Storage	268.5
G.Skill Trident Z RGB	1174.36	1418.99	Storage	244.63
G.Skill Ripjaws 4 Series	834.06	1073.99	Storage	239.93
Crucial	580.33	811.99	Storage	231.66
G.Skill Ripjaws 4 Series	836.03	1055.99	Storage	219.96
Corsair Vengeance Pro	596.25	808.92	Storage	212.67
G.Skill Trident Z	556.8	758.99	Storage	202.19

The above report illustrates OT's profit margin per product by subtracting the standard cost of each product from the list price. The report was generated using the following SQL query:

```
select product_name, standard_cost, list_price, category_name, list_price-standard_cost
as profit
from products join product_categories
using (category_id)
where category_id = 5
order by profit desc
```

Order Status Report

Order Id ↑	Status	Order Date
1	Pending	10/15/2017
2	Shipped	4/26/2015
3	Shipped	4/26/2017
4	Shipped	4/9/2015
5	Canceled	4/9/2017
6	Shipped	4/9/2015
7	Shipped	2/15/2017
8	Shipped	2/14/2017
9	Shipped	2/14/2017
10	Pending	1/24/2017
11	Shipped	11/29/2016
12	Shipped	11/29/2016
13	Shipped	11/29/2016
14	Shipped	9/28/2017
15	Shipped	9/27/2017

The above report illustrates OT's order status for each order that's been placed with the company. The valid status of each order is either shipped, pending or canceled. The report was generated using the following SQL query:

```
select order_id, status, order_date
from orders
```
